🪪 Profile

Curious by nature, I love blending creativity with problem-solving to build digital experiences that feel smooth and intuitive. I enjoy refining details, whether it's perfecting UI interactions or optimizing performance. Always eager to learn, I find excitement in tackling new challenges and exploring emerging technologies. For me, development isn't just about writing code—it's about crafting experiences that people enjoy using.

💼 Professional Experience

Software Engineer   2024 – present
Agmo Studio ↗
- Designed and developed scalable web applications
- Implemented UI based on Figma designs
- Integrated APIs and collaborated with cross-functional teams to deliver high-quality solutions.

Research Analyst   2024 – present
4Labs ↗
- Conducting in-depth research across various blockchain networks.
- Actively engaged in organizing university workshops to promote blockchain education and community development.
- Developing portfolio website to showcase research articles and insights.

📁 Projects

MyStartup ↗
Developed and implemented the UI based on Figma designs, ensuring a responsive and user-friendly experience.

MyMahir ↗
Integrated APIs to enable seamless data flow and functionality within the application. Collaborated closely with designers and backend engineers to deliver a polished and efficient product.
